Biography (education and practice):

Danielle Saadeh is an epidemiologist, educator and researcher in public health, epidemiology, and biostatistics. She is a registered nurse graduated from the Lebanese University, with a PhD in Public Health, Epidemiology and Biostatistics, from Bordeaux 2 University and the Lebanese University. She has previously worked as a registered nurse (from 2007-2012) and since September 2012, she started working as a specialist in epidemiology at the Ministry of Public Health (MOPH) in Lebanon until this day. Since 2014 until this day, she teaches in several private universities in Lebanon and is currently an associate professor at the Lebanese University. She has special interest in health research and scientific publications. She has an experience of more than 8 years in infectious disease outbreak investigation, surveillance and control with the MOPH. She is an active member of the INSPECT-LB (National Institute of Public Health, Clinical Epidemiology, and Toxicology-Lebanon) research group founded in 2018.
